- (vii) The existence of reasonable suspicion, where an abnormal change in trading volumes or prices is observed during the research or negotiation phase of any legal or financial operation that could materially influence the market price of the covered securities or financial instruments, that the change is due to premature, partial or distorted disclosure of the operation.

The Company shall report the Material Information to the CNMV pursuant to the provisions in Section 5.3 below.

5.2. Authorized Representatives

The Company shall appoint one or more Authorized Representatives.

Specifically the Compliance Officer shall appoint the individual(s) who shall act as Authorised Representative(s) meeting the statutory requirements for such position, and shall notify the appointment(s) to the CNMV in accordance with applicable regulations.

5.3. Disclosure of Material Information

Material Information shall be immediately disclosed by written notice to the CNMV by any Authorised Representatives. This notice to the CNMV shall be provided prior to or simultaneously with the disclosure of the relevant Material Information by any other means and as soon as the event that constitutes the Material Information is known, the decision is adopted by the competent body, or the relevant agreement or contract with third parties is signed.

All such notices shall include true, accurate, complete and not misleading information otherwise capable of causing confusion or deception. 6.5. Portfolio management

In relation to portfolio management agreements entered into by Restricted Individuals with entities duly authorised to provide such investment service, the following rules shall apply:

 - expressly prohibiting the manager from carrying out any investment on the Negotiable Securities and Financial Instruments.
 - absolutely and irrevocably guaranteeing that the transactions shall be carry out without any intervention whatsoever by the Restricted Individuals and thus exclusively under

- (iii) **Provision of information to the manager:** A Restricted Individual shall take steps to ensure that the portfolio manager is aware of the rules of conduct to which the Restricted Individual is subject and acts accordingly. It shall be for the Restricted Individual to consider the advisability of cancelling such agreement in the event of a default by the manager of the provisions herein.
- (iv) **Former agreements:** Agreements entered into by Restricted Individuals before the entry into force of these Rules shall be adapted to the provisions herein, and in the meantime the provisions in Sections 6.1 and 6.2 above restricting transactions with Negotiable Securities and Financial Instruments shall apply.

7. PROHIBITION OF PRICE MANIPULATION IN RESPECT OF NEGOTIABLE SECURITIES AND FINANCIAL INSTRUMENTS ISSUED BY THE COMPANY

In accordance with Sections 231 of the LMV and 2.1 of RD 1333/2005, Restricted Individuals and Insiders shall refrain from preparing or engaging in practices that distort the price formation of the Negotiable Securities and Financial Instruments issued by the Company, such as:

- (i) closing transactions or issue trading orders which give, or are likely to give, false or misleading signals as to the supply of, demand for or price of the Negotiable Securities or Financial Instruments issued by the Company.
- (ii) closing transactions or issue trading orders which secure, by a person or persons acting in collaboration, the price of one or several Negotiable Securities or Financial Instruments issued by the Company at an abnormal or artificial level, unless the person who entered into the transactions or issued the orders to trade establishes that his reasons for so doing are legitimate and that such transactions or orders to trade conform to accepted market practices on the regulated market concerned, and conduct by a person or persons acting in collaboration to secure a dominant position over the supply of or demand for any Negotiable Security or Financial Instrument which has the effect of fixing, directly or indirectly, purchase or sale prices or creating other unfair trading conditions.
- (iii) closing transactions or issue trading orders based or employing fictitious devices or any other form of deception or contrivance, and the buying or selling of Negotiable Securities

or Financial Instruments at the close of the market with the effect of misleading investors acting on the basis of closing prices.

- (iv) dissemination of information through the media, including the Internet, or by any other means, which gives, or is likely to give, false or misleading signals as to the Negotiable Securities and Financial Instruments issued by the Company, including the dissemination of rumours and false or misleading news, where the person who made the dissemination knew, or ought to have known, that the information was false or misleading.
- (v) taking advantage of occasional or regular access to the traditional or electronic media by voicing an opinion about the Negotiable Securities and Financial Instruments, or indirectly about its issuer, while having previously taken positions on such Negotiable Securities or Financial Instruments and profiting subsequently from the impact of the opinions voiced on the price of the relevant Negotiable Security or Financial Instrument, without having simultaneously disclosed that conflict of interest to the public in a proper and effective manner.

The following transactions or orders shall not be deemed included herein, namely:

- (i) those originating from the execution by the Company of “buy-back” programmes in own shares, provided that such trading is carried out in accordance with applicable laws; and
- (ii) more generally, any transactions carried out in accordance with applicable laws.

8. TRANSACTIONS IN OWN SHARES

- (i) For the purposes of these Rules transactions in own shares shall mean transactions carried out by the Company or the companies within the Dominion Group, directly or indirectly, in shares in the Company or in financial instruments or agreements of any kind, whether or not traded in a Stock Exchange or other organised secondary market, that confer the right to acquire, or whose underlying assets are, shares in the Company.
- (ii) Transactions in own shares shall always be executed for legitimate purposes, such as, among others, to provide investors with adequate liquidity in the trading of the shares in the Company, reduce fluctuations in the share price, execute buy-back programmes in respect of own shares approved by the Board of Directors or the General Meeting, comply with legitimate undertakings previously accepted or any other admissible purposes in accordance with applicable regulations. No such transactions shall be executed for the purposes of influencing price formation in the market. Specifically, the conducts described in Section 231 of the LMV, Section 2 of RD 1333/2005 and Section 7 above shall be avoided.
- (iii) No transactions in own shares in respect of shares in the Dominion Group shall proceed on the basis of Inside Information.
- (iv) Transactions in own shares shall be carried out with total transparency in dealings with supervisors and stock exchange management bodies.
- (v) The Finance Department shall, in connection with own shares:
 - manage the own shares in accordance with the provisions in this Section and applicable regulations, without prejudice to the possibility to enter into a liquidity

agreement with a financial institution to ensure independent management of such shares in accordance with the rules governing such agreements as an accepted market practice.

- monitor performance of the shares of the Company in the market, and report any significant variation in their trading price to the Compliance Officer.
 - keep a file identifying all transactions in own shares authorised and executed.
 - report regularly on such transactions to the Compliance Officer, who in turn shall, where appropriate, inform the CNMV.
- (vi) All staff of the Finance Department shall assume a specific duty of confidentiality regarding such transactions in own shares.
- (vii) The Compliance Officer shall exercise its functions in order to discharge its duties under this Section and shall periodically report to the Board of Directors on these transactions.
- (viii) The sum of the daily traded volume of own shares in all systems or markets in which own shares are traded, including both purchases and sales, shall not exceed 15% of the daily average buy trades in the 30 previous sessions in the main market (*mercado de órdenes*) of the regulated secondary market in which such shares are admitted to trading. This threshold shall be increased to 25% when the own shares purchased are to be used as consideration for the acquisition of another company or for exchange within the framework of a merger process.
- (ix) All prices shall be formulated in such a way that they do not interfere with the price formation process. For such purposes, the market member used shall be instructed to act in accordance with this rule. Buy orders shall not be entered at a price higher than the higher of the last price traded in the market between independent parties and the price of the highest buy order in the market order book. On the other hand, sell orders shall not be entered at a price lower than the lower of the last price traded in the market between independent parties and the price of the lowest sell order in the market order book. In addition, buy or selling prices should not create a trend in the stock price.
- (x) No buy or sell orders shall be entered during the opening or closing auctions, except:
- (a) on an exceptional basis, for good reason and taking due care to ensure that such orders do not decisively influence the auction price. In any event, the aggregate volume of orders entered, including buy and sell orders, shall not exceed 10% of the theoretical volume resulting from the auction at the time the orders are entered. Additionally, absent exceptional, justified circumstances, no market or “at best” orders shall be entered in these periods; or
 - (b) if the shares issued by the issuer are purchased or sell pursuant to the trading system known as *fixing*. In such a case orders should be entered well in advance before the close of the auction so as to offer an opportunity to the remaining market participants to react to such orders. Additionally, absent exceptional, justified circumstances, no market or “at best” orders shall be entered in these periods.
- (xi) No transactions in own shares shall be entered into during the period between the date on which, pursuant to Section 228.4 of the LMV, the Company decides, at its own risk and

responsibility, to delay the publication and disclosure of Material Information and the date on which such information is published.

- (xii) While the shares are suspended from trading, the issuer or the intermediary acting on behalf of the issuer shall not enter any orders during the auction period prior to the lifting of the suspension until transactions in the security have resumed. Unexecuted orders shall be withdrawn.
- (xiii) In any case, the Company shall not execute any transactions in own shares within 15 days prior to the date established for the publication of the Company's results.
- (xiv) Steps shall be taken to ring-fence the management of treasury shares from the Company's remaining activities.
- (xv) Where the relevant notice of a Material Event has been submitted to the CNMV on the acquisition of another company or the merger with another company, and such acquisition or merger is to be implemented entirely or partly through the purchase of own shares, the following disclosure guidelines shall apply:
 - (a) Before the purchase of own shares, the purpose of such purchase, the number of own shares to be purchased and the period during which such purchases are to be made shall be disclosed through the submission of the relevant notice of Material Event to the CNMV.
 - (b) Details of transactions in own shares entered shall be disclosed through the submission of the relevant notice of Material Event to the CNMV no later than the end of the seventh daily market session following the day on which such transactions were executed.
 - (c) If in the end the acquisition or merger with another company that justified the purchase of own shares does not proceed, then this fact shall be disclosed through the submission of the relevant notice of Material Event to the CNMV, including in such notice a reference to the use of the own shares so purchased.
- (xvi) The Dominion Group shall comply, in respect of any transactions in own shares, with the obligations herein and also with all statutory obligations and requirements applicable from time to time.
